EDUCATION

B. Tech in Computer Science Engineering Indian Institute of Information Technology, Dharwad	2021 - 2025
Intermediate Vision Neet Academy, Bangalore	2018 - 2020
High School Alvas English Medium High School, Moodbidri, Dakshina Kannada	2015 - 2018

SKILLS

Programming Languages	Python, SQL (MySQL), TypeScript, HTML, CSS
Tools	Git, Docker, Figma, Microsoft Excel
Frameworks	Next.js
Data Visualization	Power BI, Tableau

EXPERIENCE

Intern Infokalash Private Limited	Jan 2025 - Mar 2025 <i>Hubbali, Karnataka</i>
- Achieved 25% faster design iterations by creating reusable components and implementing a cohesive design system using Figma. - Developed interactive prototypes and wireframes that streamlined communication with developers, reducing implementation time by 20%. - Built responsive frontend components using HTML, CSS, React.js, Next.js and TypeScript to ensure seamless design-to-code transitions.	

PROJECTS

DevVault - Password Manager for Developers	Aug 2024 - Nov 2024
- Developed a web interface using Next.js to simplify credential management with advanced search functionality, tagging, and categorization for better organization. - Deployed the application using Docker to ensure consistent performance across platforms.	
Agriculture Supply Chain Implementation using Blockchain	Jan 2024 - April 2024
- Engineered a secure user access system with MetaMask integration, leveraging blockchain-based identity management to ensure authenticity and trust. - Improved transparency in the agricultural supply chain by developing secure authentication protocols and implementing thorough testing procedures.	
FindEasy	Jan 2023 - May 2023
- Developed a dynamic real estate listing platform using HTML, CSS, and JavaScript, offering an intuitive interface for property searches. - Collaborated with a team to successfully bring the project to life, demonstrating both technical expertise and user-centric design principles.
